North Hollywood Patrol officers responded to the above location due to complaints that a homeless encampment was blocking the sidewalk and involved in illegal dumping. While attempting to make contact with a resident inside of a recreational vehicle (RV), an approximately 50 pound pit bull emerged from under the RV. The officer attempted to back away from the dog; however, it charged at the officer, leaping up and dislodging the body worn video (BWV) camera off his chest. The officer fired two rounds from his handgun, striking the dog.

The dog ultimately died at scene.

No officers were injured during the incident and no arrests were made.

Force Investigation Division (FID) detectives responded to the scene and are investigating this incident.
